1. Introduction

AUREX is a community-driven cryptocurrency project built on the BNB Smart Chain (BEP-20). The project's mission is to create a transparent, secure, and growth-oriented ecosystem where the community plays a central role in decision-making and development.

2. Problem Statement

Many cryptocurrency projects lack transparency, trust, and strong community engagement. Investors often face issues with hidden fees, unclear tokenomics, and poor communication from project teams. This creates a barrier to adoption and long-term sustainability.

3. Solution: AUREX Token

AUREX aims to solve these challenges by providing a fully transparent, community-driven token. The project focuses on clear communication, fair tokenomics, and a long-term vision. Holders are empowered through regular updates and governance mechanisms.

4. Tokenomics

The AUREX token has the following specifications:

Metric	Value
Total Supply	1,000,000 AUREX
Buy Tax	0%
Sell Tax	0%
Network	BNB Smart Chain (BEP-20)

5. Roadmap

Phase	Milestones
Phase 1	Token launch and PancakeSwap listing
Phase 2	Marketing campaigns, community growth, CoinGecko & CMC listings
Phase 3	Partnerships and future exchange listings

6. Legal Disclaimer

The AUREX token is a community experiment and does not constitute financial advice. Cryptocurrency investments are inherently risky and can result in significant financial loss. Users should always perform their own research (DYOR) before participating in any project.
